A Webinar on Significance of Science and Technology was organized by the Internal Quality Assurance Cell headed by chairman Dr. G Ranganath, Principal, Adhiyamaan college of Engineering, Hosur, Tamil Nadu, Coordinated by Dr N.S. Badrinarayanan Dean - Autonomous, Adhiyamaan College of Engineering, Hosur, Tamil Nadu on 28.07.2021. The resource person of this webinar was Mr. Narendiran Asokan, Founder, Newton Box, Chennai.

National Science Day is celebrated on February 28th every year in India to mark the discovery of the Raman Effect by Indian Physicist Sir Chandrasekhara Venkata Raman. This year, due to the COVID-19 pandemic, the event was organized as a webinar to commemorate the occasion. The theme of the webinar was "Significance of Science and Technology".

The webinar was attended by a diverse audience of students, researchers, scientists, and academicians. The keynote speakers included renowned scientists and experts in the field of science and technology. They emphasized the crucial role that science and technology play in shaping the future of the world. The speakers emphasized the importance of scientific research and innovation for the development of new technologies and their application in various fields, including healthcare, energy, transportation, and communication.

The speakers also touched upon the need for interdisciplinary collaboration and cross-fertilization of ideas between different fields of science and technology. They highlighted the significance of science education and the need for the development of critical thinking and problem-solving skills among students. They emphasized the importance of science communication and outreach programs to promote scientific literacy among the general public and to increase public awareness of the benefits of science and technology.

The webinar also provided a platform for the participants to engage in discussions and exchange of ideas. There were interactive sessions and Q&A sessions where participants could ask questions and receive expert answers on various aspects of science and technology.

In conclusion, the National Science Day webinar was a valuable opportunity for participants to learn about the significance of science and technology and to engage in discussions with experts in the field. The event emphasized the importance of science and technology for the progress and well-being of society and highlighted the need for continued investment in scientific research and education.
