REPORT

Report on Hands-on Training on Moodle

Mentor : Dr. D. Swamydoss, Professor MCA, ACE.

On 7th December 2021, a hands-on training session on Moodle was conducted for the participants to gain practical knowledge and experience on the Moodle platform. Moodle is a Learning Management System (LMS) that provides an online learning environment for teachers, students, and administrators to create, manage, and deliver educational content. The training was aimed to give the participants an in-depth understanding of the Moodle platform and its features.

Training Content:

The training session covered various aspects of the Moodle platform, including its interface, course creation, module creation, and the various tools available for assessment and communication. The participants were also taught about the various settings and configurations that can be customized to meet the specific needs of their organization or institution. The trainer demonstrated the use of Moodle's in-built activities, such as quizzes, forums, and assignments, to create engaging and interactive learning experiences for students.

Participant Feedback:

The participants expressed their appreciation for the hands-on training approach, as it allowed them to understand the Moodle platform and its features better. They also appreciated the opportunity to practice and apply the concepts learned during the training session. The participants found the training to be comprehensive, well-structured, and delivered in an easy-to-understand manner.

Conclusion:

In conclusion, the hands-on training on Moodle provided the participants with a practical and in-depth understanding of the platform and its features. The training was well received by the

participants and was deemed to be a success. The participants now have the knowledge and skills necessary to effectively utilize the Moodle platform to deliver and manage online learning content.

Recommendations:

Based on the feedback received, it is recommended that future training sessions on Moodle be conducted in a similar hands-on format. This will allow the participants to better understand the concepts and features of the platform, and provide them with practical experience in using Moodle. Additionally, it is recommended that training sessions be conducted on a regular basis to keep the participants up-to-date with the latest developments and features of the Moodle platform.
